CURRICULUM GUIDE

GOOD DADS 2.0

16 Lessons • For At-Risk Fathers

Good Dads' flagship evidence-based course equips dads (as well as step-dads, grandfathers and father-figures) with what they need to overcome the barriers they may face in becoming responsible fathers. It covers a variety of topics relevant to 21st century fatherhood through important and thought-provoking questions, multimedia expert testimonials and educational activities.

Good Dads 2.0 is appropriate for dads of any background who have children of any age. It is designed to be especially relevant to fathers with histories of incarceration and addiction.

GOOD DADS STRONG SCHOOLS

8 Lessons • For Dads & Elementary Students

We make it fun and easy for fathers to be more engaged with their children in an elementary setting with ***Good Dads Strong Schools.*** Monthly lessons spanning three school years contain low-tech, tactile activities intended to promote father-child conversation on a character related theme, such as kindness, gratitude, cooperation, patience and more.

By expressly targeting dads, this program sends the clear message that father involvement is imperative to a child's success in school.

Also available in Spanish.

FUNDAMENTALS FOR GOOD DADS

8 Lessons • For Dads in the Workplace

Using familiar language and relatable examples common to any sports lover, ***Fundamentals for Good Dads*** encourages fathers to become more engaged with their children.

Participants experience a fusion of engaging, facilitator-led discussion and educational, impactful activities. They use multimedia expert testimonials from professional coaches to reinforce the idea that the winning habits successful coaches employ are many of the same strategies that good dads use to raise healthy, happy families.

GOOD DADS GREAT COMMUNITIES

6 Lessons • For Community Leaders

This video and discussion-based program is designed to help organizations and communities address the needs of fathers. Participants learn how a great community needs strong schools, safe neighborhoods and robust economies to thrive—and discover how fathers are often the missing piece of the puzzle.

Good Dads Great Communities helps fill in the gaps by equipping your community with resources to assess the impacts of father absence in your area and find solutions.
